Member Spotlight: Why Members Love Their Access2day Membership

At Access2day Health, our members are at the heart of everything we do. From walk-in convenience to \$0 cost care and trusted providers, members continue to share how much they value their membership, and recent survey results reflect that strong connection.

According to our latest member survey:

✔ **97.82%** report overall satisfaction

✔ **95.83%** say Access2day has improved their health

These results highlight what members experience every day: convenient access to care, minimal wait times, and peace of mind knowing they can get the care they need without worrying about cost. Members often tell us how much the program has changed the way they approach healthcare:

Member Testimonials

“Access2day Health is a great program. It allowed me to see a doctor without an appointment. At the time, I had two sons in high school who played many sports. Being able to get them seen quickly, often on weekends, was extremely helpful since missing school or practices wasn’t an option.

It saved our family money more than once because we were able to use Access2day instead of going to the emergency room. When I switched jobs, I was sad that Access2day wasn’t available. I’m excited to have this benefit again and believe it will be an absolute benefit for employees and families.”

—Harvey, LA

“This has been the best service for me and my family. There are many convenient locations, and not having a co-pay is helpful in today’s economy.”

—Lafayette, LA

“It’s the best program. The doctors are very friendly and helpful. Being able to get care without worrying about money has made such a difference.”

—Rayville, LA

Access2day clinics are designed to make healthcare simple, accessible, and focused on keeping members healthy, because when care is easy to access, better health follows.

How Access2day Works

Getting care has never been easier. With Access2day, members can visit any participating clinic for \$0 cost, no insurance hassle, and no appointment needed. From everyday illnesses to minor injuries, Access2day clinics provide fast, quality care so you can get back to what matters most.

Healthy Heart Tips

Taking care of your heart is one of the most important things you can do for your overall health. Here are a few simple ways to keep your heart healthy:

- ✔ Stay active with regular movement
- ✔ Choose heart-healthy foods
- ✔ Manage stress and get enough rest
- ✔ Visit a clinic early if something doesn't feel right
